TECHNICAL COLLEGE

ANNUAL REPORT 2013 2014

A Letter from the President

Dear Friends of Southern Crescent Technical College:

Now that the fall semester has begun, it is time for me to add my comments to the SCTC Annual Report to our stakeholders. Every year this time seems to come faster and faster, and this year is no exception.

On July 17, we formally opened our new classroom facility in Henry County. When the fall semester began in August, we had over 400 students taking classes in the new building. The General Assembly included an amount in the FY15 budget for planning for the second building, and last November, the voters of Henry County passed a Special Purpose Local Option Sales Tax (SPLOST) that included funding for a portion of the future construction costs of that building. We are already working on the future of that campus.

On the Griffin campus, we opened the new, innovative “Georgia Film Institute” to provide instruction for those who wish to enter the immensely popular film industry. This initiative is gaining popularity and notoriety from many different angles, and we look forward to our first graduates getting into the film business next summer.

Statewide in the Technical College System of Georgia the enrollment is down slightly, and SCTC is following that trend; however, we appear to have made some significant strides in gaining and keeping students through graduation. We awarded over 45% more credentials (associate degrees, diplomas, and technical certificates) this past year than the year prior, and our total placement rate remains in excess of 95%. By all measures, Southern Crescent Technical College is maintaining both our pace and our quality.

I would be remiss if I failed to thank our many supporters, contributors, and donors. Our Foundation continues to work diligently to provide scholarships to our students and to provide funding that the College needs to grow. I salute our Board of Trustees for their work to provide these much-needed resources.

It continues to be my honor to serve as the President of this great organization, and I look forward to what is yet to come. Thank you for all that you do.

A handwritten signature in blue ink, which appears to read "Randall L. Peters". The signature is fluid and cursive.

Randall L. Peters, Ed.D.
President

Southern Crescent Technical College

Mission Statement

Southern Crescent Technical College, a unit of the Technical College System of Georgia, is an institution of higher education that delivers relevant technical education at the associate degree, diploma, and certificate levels and workforce training programs via traditional and distance learning formats that promote lifelong learning and impact economic development in the west central Georgia region that spans south of Atlanta and north of Macon.

Vision Statement

Southern Crescent Technical College is structured through ongoing assessment and strategic planning to emerge as the preeminent technical college that develops students to become globally work-ready employees through the unification of focused instruction, access to industry-relevant technology and facilities, and a culture of engagement, communication, and support.

Core Values

Southern Crescent Technical College is guided by the practice of the following core values:

- **Academic Excellence**
- **Student Success**
- **Integrity**

Guarantee

Curriculum standards have been developed with direct involvement of business and industry. These standards serve as the industry-validated specifications for each occupational program. The Technical College System of Georgia's guarantee to every one of our students is this:

"If one of our graduates educated under a standard program or his/her employer finds that the graduate is deficient in one or more competencies as defined in the standards, the technical college will retrain the employee at no instructional cost to the employee or the employer." This guarantee is in effect for a period of two years after graduation.

Southern Crescent Technical College

Crystal Busbin

Radiologic Technology Graduate
2014 SCTC GOAL Winner

I cannot say enough great things about this college! Before enrolling, I researched a lot of different schools, but none of them were able to offer the hands-on training and real-world experience like Southern Crescent Technical College. Here, I received an affordable, quality, relevant education that really prepared me for the workforce. The instructors are very knowledgeable and are always willing to go the extra mile to assist their students. Through my clinical rotations, I gained exposure to several local hospitals and, in doing so, had two job offers before graduation. I am now pursuing my bachelor's degree and am looking forward to a long, rewarding career in the healthcare field.

Southern Crescent Technical College

Elizabeth Hitchcock

2014 SCTC EAGLE Winner
Criminal Justice Technology Student

I was eager to begin my life beyond high school, so I enrolled in Southern Crescent Technical College to obtain my GED. During that time, I was nominated for the Exceptional Adult Georgian in Literacy Education (EAGLE) award. The EAGLE program helped me to gain confidence in myself and has given me opportunities that I could have never imagined before. Once shy and reserved, I am now a confident, outgoing Criminal Justice Technology student well on my way to reaching my career goals. I am a different person because of Southern Crescent Technical College, and I couldn't be more thankful.

Southern Crescent Technical College

Edva Smith

GED Graduate
Criminal Justice Technology Graduate
Agent, Georgia Composite Medical Board

Shortly after arriving in this country, I began taking ESL and GED classes at Southern Crescent Technical College. Upon completion of my GED, I became interested in the Criminal Justice program and was urged to enroll. Juggling a family and school while preparing for a new career was tough, but the faculty and staff were always encouraging and kept me motivated. I completed classes, completed the Police Academy, and was hired as a police officer before graduation. I have had the opportunity to work in many different areas of law enforcement, but the knowledge and training that I received at Southern Crescent Technical College were the foundation for everything that I have learned in my professional life.

Southern Crescent Technical College

Coleman Dumas

Automotive Technology Dual Enrollment Student
Upson-Lee High School Senior

I've always been interested in cars and mechanics, so I jumped at the chance to enroll in the Automotive Technology program as a Dual Enrollment student. Not only am I able to learn a skill that interests me, but also I am getting a jump-start on my future by taking college courses while still in high school and gaining the fundamentals to prepare me for a future in engineering. My Dual Enrollment classes at Southern Crescent Technical College are something that I look forward to each day, and I'm glad I was able to take advantage of such a great opportunity.

Southern Crescent Technical College

Mark Henson

Air Conditioning Technology Graduate
Owner, Henson Heating and Air

Several years ago as my friends were preparing to head off to college, I realized that it was also time for me to make plans for my future. I knew that I eventually wanted to own my own business, but I also knew that I needed solid training and experience in order to be successful. I was familiar with technical education because several of my family members had attended technical colleges, but I was excited to learn that Southern Crescent Technical College had a great reputation, excellent instructors, a high job placement rate, and a concentrated program designed to get me into the workforce quickly. I enrolled in the Air Conditioning Technology program where I received the fundamental training that I needed to enter this industry. After several years, I now own my own successful business and have a meaningful career, thanks to hard work and Southern Crescent Technical College.

SCTC Foundation

The Southern Crescent Technical College Foundation, Inc. is a non-profit organization organized under Georgia state law that provides guidance and helps secure funding for Southern Crescent Technical College.

The Foundation is governed by a local board of trustees who represent positive leadership and community influence throughout the College's nine-county service area of Butts, Fayette, Henry, Jasper, Lamar, Pike, Spalding, Taylor and Upson. By serving as advisors in the advancement of the College, the Board of Trustees plans and implements resource development activities to improve programs and recognition for Southern Crescent Technical College.

The Foundation is important because it provides Southern Crescent Technical College with the financial support needed to grow. The tie that binds the College and the Foundation is that the Foundation recognizes the unmet need for funding available to technical education.

The Southern Crescent Technical College Foundation, Inc., is fiscally and organizationally separate from the College. Its purpose is to receive private gifts, bequests, and donations and to account for, manage, and help appreciate monies or property submitted to the Foundation. The Foundation also exists to improve the image and expand community awareness of Southern Crescent Technical College. The Foundation's mission, goals, and objectives are consistent with the philosophy, purpose, and strategic plan of the College.

The Southern Crescent Technical College Foundation, Inc., is incorporated under Georgia Law and is financially and organizationally separate from the College. It is classified as a 501(c) (3) organization under the Internal Revenue Code and gifts received may be tax deductible.
