

Student Blackboard Training Course

All new students are enrolled in the Student Blackboard Training Course. This is a voluntary, work-at-your-own pace course that will help students learn how to navigate and use the tools within Blackboard. To find this course, follow the steps below:

1. Go to <https://login.sctech.edu> OR to www.sctech.edu and then select **My SCTC**

2. Next, Login to **Okta**

3. Select the **Blackboard** app

4. Once inside Blackboard, you will find the training course under **My Organizations**.

My Organizations

5. Select the course link to enter the Student training course.

Student Blackboard Training Course

WELCOME!

Student Orientation

BE A BETTER LEARNER

WELCOME!

Welcome to the Student Orientation Course!

You've come to the right place to test drive an online course before taking your real classes!

This course uses Blackboard Learn v. 9.1, a learning management system (LMS) that you access on the Internet. Instructors use it for anything from simply "Learn" or "BbL" for short.

Goal: This unfacilitated and self-paced course will quickly increase your comfort level with online learning and provide practice with common course tasks. See Southern Crescent's Student Helpdesk: <http://studenthelpdesk.sctech.edu/>.

Method: Lessons 1-8 contain the same elements:

- Brief overviews of the big ideas in each area of online learning
- Checklists that give you hands-on practice with course tools, and links to help.blackboard.com resources
- Practical strategies and resources for being the best online learner you can be
- Ideas to think about and tasks to complete in your online course(s) at your school

Helpful Links:

- Links to instructions and tutorials are included in the lessons.
- The "Glossary" link near the bottom of the course menu (on the left) opens a list of useful terms from the course.
- The "Blackboard Learn Help" link at the bottom of the course menu opens the online student manual, which is searchable.

How do I get around in the course?

The course menu on the left provides links to the lessons and other tools. Start by clicking on **1] Begin and Log In**. JUMP IN and have fun!

5. Click on SCTC Home button to return to your home menu located upper right.
